We build tube well Where are the wells built?

We will build your tube well where it is most appropriate and beneficial. Some common locations include: Pakistan, India, and Bangladesh our aim is to cover the whole world with all kindness. The cost for a single tube well is: £200

What is the feedback process?

On completion you will receive a certificate with a picture of the tube well including your specified plaque with the name of your choice of a maximum 21 characters.

PROJECT LAK

THE TIME WE OPERATE: 2:30 to 5:00
winter time 2:30 to 6:00 summer time

We are currently providing help and support with English and Maths and the school national curriculum with homework as we'll, all of the students, and their parents, and the people of this village are overwhelmed with the support of this centre provides and very impressed with the enthusiasm of the children at this centre with this extra help they can all see the successful life to come a new beginning of true life.

“See our website for more details of all our projects on what we do and how we do it with your support”

WHAT WE WOULD LIKE TO ACHIEVE:

We would like to support local community's children in different way by providing education activities, support in curriculum activities, helping them to learn second language and also encourage them to take part in extra curriculum activities as well. Ultimately our main goal is to help them to become a good and responsible citizen
